Revised

The Honorable Board of Supervisors  
County of Los Angeles  
383 Kenneth Hahn Hall of Administration  
500 West Temple Street  
Los Angeles, CA 90012-2756

Dear Supervisors:

**COUNTY IMPROVEMENT NO. 2659-M, SHRODE AVENUE SEWERS  
UNINCORPORATED COUNTY AREA IN THE VICINITY OF THE CITY OF DUARTE  
SUPERVISORIAL DISTRICT 5  
3 VOTES**

### **IT IS RECOMMENDED THAT YOUR BOARD:**

1. Adopt the enclosed Second Amended and Restated Resolution of Intention for construction of sanitary sewers in the unincorporated County area in the vicinity of the City of Duarte.
2. Consider the enclosed Engineer's Report, dated September 2005, prepared pursuant to the provisions of Sections 10203 and 10204, Division 12, California Streets and Highways Code.
3. Adopt the enclosed Resolution Setting Time and Place for Hearing, setting a hearing date no sooner than 45 days hence, in reference to the Resolution of Intention and the Engineer's Report and the finding of public convenience and necessity.
4. Instruct the Director of Public Works to mail out the notices of assessments and the ballots at least 45 days before the set hearing date.

**AFTER THE PUBLIC HEARING, IT IS RECOMMENDED THAT YOUR BOARD:**

1. Authorize the tabulation of the ballots submitted, and not withdrawn, in support of and in opposition to the proposed assessment and determine whether a majority protest against the proposed assessment exists.
2. If no majority protest against the proposed assessment exists:
  - a. Adopt the enclosed Amended and Restated Resolution Confirming Assessment and Ordering Improvements Made for the construction of sanitary sewers under County Improvement District No. 2659-M (Shrode Avenue Sewer Project).
  - b. Award and authorize the Director of Public Works, or his designee, to prepare the construction contract in the form previously approved by County Counsel, execute the contracts, and establish the effective dates following receipt of approved Faithful Performance and Labor and Material bonds filed by the contractor for the Shrode Avenue Sanitary Sewers County Improvement No. 2659-M project, Project ID No. CID0000001, vicinity of Irwindale (5), to DLSB, Inc., in the amount of \$437,146.00.
  - c. Direct the Executive Officer of the Board of Supervisors to file the enclosed boundary map in the Board's office, to endorse the certificate on the map, and to file the map and the Notice of Assessment in the Office of the Registrar-Recorder/County Clerk in accordance with the provisions of Section 3114 of the California Streets and Highways Code.
3. If a majority protest against the proposed assessment exists:
  - a. Terminate assessment district formation proceedings for County Improvement District No. 2659-M.

**PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The purpose of the recommended actions is to facilitate the formation of a County Improvement District for the construction of sanitary sewers in Shrode Avenue and other surrounding streets in an unincorporated County island of East Monrovia, in the vicinity of the City of Duarte. The project encompasses 64 parcels. The project area is

located west of Mountain Avenue, north of Camino Real, east of Lincoln Avenue and the Sawpit Wash, and south of Pamela Street. The proposed sewers consist of approximately 2,000 linear feet of 8-inch mainline sewers, 1,900 linear feet of 6-inch sewer laterals from the mainline to the private property lines, 10 sewer manholes, and the restoration of existing improvements.

On August 24, 2004, your Board adopted a Resolution of Confirming Assessment and Ordering Improvements Made upon determining that a majority protest against the proposed assessments did not exist. Consistent with your orders, the final construction plans were prepared and construction bids were obtained. Five construction bids were received on August 30, 2005. While all bids received exceeded the estimate contained in the Engineer's Report, dated April 2004, we do not recommend that the project be rebid since construction cost trends indicate that future bids would not be lower.

Section 53753 of the California Government Code and Proposition 218 require that a new Proposition 218 ballot proceeding be conducted since the assessments are insufficient to fully fund the proposed sanitary sewer system project. The enclosed Engineer's Report, dated September 2005, reflects the revised project cost and revised assessment for the proposed sanitary sewer system. The scope of the project and the extent of the proposed assessment district are unchanged.

The construction bids are valid until November 28, 2005. Subsequent to determining that a majority protest against the revised assessment does not exist and upon confirming the revised assessment, it is recommended that the construction contract be awarded to DLSB, Inc., in the amount of \$437,146.00. Also, enclosed is an Award of Contract Summary, which includes the project description, the call for bids and bid opening dates, a tabulation of bids, and financial information. The certified record of receipt of bids and the original bid proposals for the project are also enclosed.

#### **Implementation of Strategic Plan Goals**

This action is consistent with the County's Strategic Plan Goal of Community Services as this project will increase the quality of life for residents of a community in an unincorporated area of Los Angeles County.

#### **FISCAL IMPACT/FINANCING**

Funding for the preparation of the Engineer's Report and filing of this report have provided to Public Works by your Board and, if the County Improvement District is approved, it will be reimbursed with proceeds from the County Improvement District.

Proceeds will be generated from assessments to the benefited property owners and the sale of bonds. Your Board's approval of the enclosed Resolutions will not result in any direct fiscal impact on the County.

On August 24, 2004, Synopsis 31, your Board authorized the Treasurer and Tax Collector to issue and sell limited obligation bonds for County Improvement District No. 2659-M pursuant to the Municipal Improvement Act of 1911 and in accordance with the Engineer's Report dated April 2004. The Treasurer and Tax Collector will return to your Board, prior to the Public Hearing, to secure your authorization modifying the maximum amount to be financed in accordance with the enclosed Engineer's Report, dated September 2005, and to extend the period over which the assessment installments will be levied. The construction contract will be encumbered in the Improvement Fund for County Improvement No. 2659-M.

#### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

On June 11, 2002, Synopsis 52, the Board of Supervisors approved a Resolution Instituting Proceedings and directed preparation of a Resolution of Intention for the assessment district. A Resolution of Intention is needed to declare the Board of Supervisors' intention to form a County Improvement District.

Section 53753 of the California Government Code and Proposition 218 require that a public hearing for any new or increased assessment be conducted after notice of such hearing is given at least 45 days in advance. Unless a majority of the ballots are in favor, pursuant to Proposition 218, the proposed assessment must be abandoned. In addition to the public hearing, the law requires a public meeting. Public Works will conduct a community meeting prior to the public hearing to satisfy the requirement for a public meeting.

These proceedings are governed by Chapter 3 of Improvement Act of 1913 (Section 10200 et seq) of the Streets and Highways Code, Article XIII D of the California State Constitution (Proposition 218 approved by California voters in November 1996), and Section 53753 of the California Government Code.

Pursuant to Government Code Section 54715, the Board of Supervisors shall hold a hearing to hear and consider all public comments regarding the implementation of a County Improvement District for the construction of sewers. The Executive Officer will cause notice of the filing of this report and of a time, date, and place of a public hearing, thereon to be published pursuant to Section 6066.

Enclosed is a copy of the Resolution of Intention and the Resolution setting the public hearing. Public Works will mail out notices and assessment ballots to all property owners no less than 45 days prior to the public hearing and will assist the Executive Officer of the Board of Supervisors to tabulate the assessment ballots.

The hearing to be set for this matter should be a double hearing; one phase to consider any protests relative to the Resolution of Intention and Engineer's Report, dated September 2005, and the other phase for the finding and determination of public convenience and necessity. The Resolution of Intention and other documents referred to herein have been reviewed and approved as to form by County Counsel.

The recommended contract award to the lowest responsible bidder is in accordance with the California Public Contract Code and your Board's directives.

Public Works developed an outreach program to encourage all qualified contractors to participate in the bidding and contracting process on our projects. Under this program, we place notices of upcoming bids in local and minority newspapers throughout the County. These notices indicate that copies of plans and specifications are available at specified libraries and the Public Works Headquarters building. This allows interested contractors to view the plans and specifications at convenient locations. We also provide telephone numbers (including one for Spanish-speaking contractors) to obtain further information on bidding and subcontracting opportunities.

To further increase contractor awareness of contracting opportunities with Public Works, this project was listed on the County website for upcoming bids.

The State Labor Code requires contractors to pay prevailing wage rates to all persons employed on public works construction contracts. These rates are determined by the Department of Industrial Relations and include contributions for fringe benefits such as vacations, pension funds, training, and health plans for each employee.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

The contract will be in the form previously approved by County Counsel. Public Works will also review and approve the faithful performance and payment bonds filed by the contractor.

### **ENVIRONMENTAL DOCUMENTATION**

On September 2, 2003, Synopsis 35, your Board approved the Negative Declaration for the proposed project and determined that the proposed project will not have a significant impact on the environment.

### **CONTRACTING PROCESS**

The contract was solicited on an open competitive basis in accordance with the provisions of the Public Contract Code.

The project specifications contain provisions requiring the contractor to report solicitations of improper consideration by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees.

Public Works has confirmed that the contractor is in compliance with the County's Child Support Compliance Program and the requirements of the Contractor Employee Jury Service Program. In addition, the contract will include language requiring compliance with the Newborn Abandonment Law (Safely Surrendered Baby Law).

The project specifications also contain a provision that, should the contractor require additional or replacement personnel to fill employment openings, consideration shall be given to hiring qualified participants in the County's Greater Avenues for Independence or General Relief Opportunities for Work programs.

To ensure that the contract is awarded to a responsible contractor with satisfactory performance history, bidders are required to report False Claims Act violations, labor law/payroll violations, debarments, their civil litigation history, and information regarding prior criminal convictions. The information reported by the contractor was considered before making this recommendation to award the construction contract.

### **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

If the proposed sewer project is not implemented, many of the affected property owners will be forced to provide increasing maintenance and, in some instances, complete replacement of their private sanitary waste systems.

The Honorable Board of Supervisors  
September 21, 2005

**CONCLUSION**

Upon approval, please return one approved copy of this letter to us. Also, please forward one approved copy to County Counsel, Auditor-Controller, and Treasurer and Tax Collector.

Respectfully submitted,

DONALD L. WOLFE  
Director of Public Works

**COUNTY IMPROVEMENT DISTRICT NO. 2659-M  
(SHRODE AVENUE SEWER PROJECT)  
SECOND AMENDED AND RESTATED  
RESOLUTION OF INTENTION  
FOR THE CONSTRUCTION OF SANITARY SEWERS**

WHEREAS, it has been determined by the Board of Supervisors of the County of Los Angeles, California (County) that proceedings have commenced and are being conducted under and in accordance with provisions of the Municipal Improvement Act of 1913 (the 1913 Act) for the construction of sanitary sewers; and

WHEREAS, it is the intention of the Board to undertake these proceedings pursuant to Article XVI, Section 19, of the Constitution of the State of California, as implemented by Part 2 of Chapter 4.56 of the Los Angeles County Code, to determine whether the public convenience and necessity require the improvements hereinafter described; and

WHEREAS, the Board deems it to be the best interest of County to issue and sell bonds representing the assessments, pursuant to Division 7 (commencing with Section 5000) of the California Streets and Highways Code, the Improvement Act of 1911 (the 1911 Act); and

WHEREAS, the Board desires to further amend and restate the County Improvement No. 2659-M (Shrode Avenue Sewer Project) Amended and Restated Resolution of Intention for the Construction of Sanitary Sewers adopted on August 24, 2004.

NOW THEREFORE, THE BOARD RESOLVES:

**SECTION 1**

It is the intention of the Board to determine that the public convenience and necessity require work to be done and improvements to be made, all in the County of Los Angeles, State of California, and intends to order all such work and improvements to be and done pursuant to the 1913 Act as follows:

First: The construction of sanitary sewers and appurtenances around Shrode Avenue and surrounding streets in the unincorporated area of the County adjacent to the Cities of Duarte and Irwindale (the Project).

Second: The resurfacing of the trench in the streets where such sanitary sewers are constructed.

## SECTION 2

The district to be benefited and to be assessed to pay the cost and expense thereof, and to be known as the assessment district, shall be all that part of the County of Los Angeles, having exterior boundaries as shown on a map of the district approved by the Board and endorsed with the certificate of Executive Officer-Clerk of the Board, which map is on file in the Executive Office of the Board. Reference is hereby made to the map for a full and complete description of the assessment district and the map shall govern for all details as to the extent of such district.

## SECTION 3

It is the intention of the Board to levy an assessment to pay the cost and expenses of constructing the Project.

## SECTION 4

These proposed improvements were referred to the Director of Public Works and the Director of Public Works filed with the Executive Officer-Clerk of the Board of Supervisors a report, in writing, in accordance with Section 10204 of the Streets and Highways Code, which report sets forth the following:

1. Plans and Specifications of the proposed improvements
2. An estimate of the cost of the proposed improvement including the cost of rights of way, easements, and the cost of the incidental expenses in connection therewith including the cost of registering bonds
3. A diagram showing the boundaries of the assessment district above referred to, and the boundaries of the subdivisions within said district, as they existed at the time of the passage of this Second Amended and Restated Resolution of Intention, each of which subdivisions shall be given a separate number upon said diagram
4. A proposed assessment of the total amount of the cost and expenses of the proposed improvement upon the several subdivisions of land in said district in proportion to the estimated benefits to be received by such subdivision, respectively, from said improvements. Said assessment shall refer to such subdivisions upon said diagram by the respective number thereof
5. A proposed maximum annual assessment upon each of the several subdivisions of land in the district to pay costs incurred by the County and not otherwise reimbursed which result from the administration and collection of assessments or from the administration or registration of any associated bonds and reserve or other related funds

## SECTION 5

The Board of Supervisors proposes to find and determine that the public convenience and necessity require such improvement. At the time and place fixed for hearing protests to the proposed improvement, a public hearing will also be held, pursuant to Part 2 of Chapter 4.56 of the Los Angeles County Code, to hear protests to making such finding and determination by the Board. Since the passage of Proposition 218 (California Constitution, Articles XIII C and XIII D) by the California voters in November 1996, any new assessment is now subject to property owner approval. As a result, an assessment ballot and public hearing notice will be mailed to all property owners within the proposed annexation boundaries no less than 45 days prior to the public hearing. After such public hearing, if the weighted ballots are in favor of the improvement and assessment and, the Board finds and determines that the public convenience and necessity requires said improvement, it may order such improvement without further proceedings with respect to the debt limitation or majority protest provisions of Division 4 of the Streets and Highways Code of the State of California.

## SECTION 6

It is hereby determined and declared that registered term bonds shall be issued in accordance with the 1911 Act to represent each unpaid assessment of One Hundred and Fifty Dollars (\$150) or more remaining unpaid for thirty (30) days after the date of the recording of the diagram and assessments for this improvement. The registered term bonds shall mature no later than 24 years from the second day of January next succeeding the next September following their date.

The principal sum shall become due and payable to the Treasurer in equal annual payments beginning on the October 15<sup>th</sup>, next succeeding the September 1<sup>st</sup>, and next following the date of the bonds until fully paid.

The first interest payment shall be payable to the Treasurer on the April 15<sup>th</sup> next succeeding the March 1<sup>st</sup> or the October 15<sup>th</sup>, next succeeding the September 1<sup>st</sup>, as the case may be, next following the date of the bonds. The following interest payments shall be for six (6) months interest and shall be payable coming due the October 15<sup>th</sup> immediately preceding the last annual payment of the principal of the bonds issued to represent the unpaid assessment.

A two percent per month penalty, as provided in Section 6442 of the Streets and Highway Code, shall be imposed on any delinquent installment of the principal of the unpaid assessment or of interest thereon. The two percent penalty first imposed shall be retained by the Treasurer as a cost of servicing the delinquency, and all subsequent penalties, shall be paid to the holder of the bond along with and as part of such defaulted payment.

The bonds shall bear interest at a rate to be determined on the sale thereof provided, however, that said rate shall not exceed the maximum rate of interest allowable by law at the time of the sale. The redemption provisions of said bonds shall provide a premium of five percent of unmatured principal.

#### SECTION 7

It is the opinion of the Board that the public interest will not be served by allowing the property owners to take the contract for the work to be done under these proceedings.

#### SECTION 8

After completion of this improvement and the payment of all claims from the improvement fund, the amount of the surplus, if any, remaining in the improvement fund by reason of the assessment and any supplemental assessment levied for said improvement shall be used: (a) for transfer to the general fund of the County of Los Angeles provided that the amount of the surplus does not exceed One Thousand Dollars and 00/100 (\$1,000.00) or five percent (5%) of the total amount expended from the improvement fund, whichever is less; or (b) if the amount of the surplus is greater than that allowed under (a), then as a credit upon the assessment and any supplemental assessment, in the manner provided in Section 10427.1 of the Streets and Highways Code, provided, however, that if no supplemental assessment has been levied, the entire amount of the surplus shall be applied as a credit to the assessment; or (c) for the maintenance of the improvement. If any surplus results for the reasons stated in Section 10427.5 of the Streets and Highways Code, such surplus shall be disposed of as provided in the Section.

#### SECTION 9

It is the intention of the Board to enter into an agreement with the Consolidated Sewer Maintenance District to own and manage the Project.

ASSESSMENT ROLL - PART B

## **INTRODUCTION**

Local residents petitioned the County to form an assessment district for the design and construction of the Shrode Avenue Sewer project. Proposition 218 (Sections 53750-53754 of the Government Code), approved by the California voters in November 1996, provides property owners the opportunity to determine by ballot whether or not to form an assessment district and levy assessments against their properties. The purpose of the assessment is to finance the costs for design and construction of wastewater collection and conveyance facilities to serve these properties.

This Engineer's Report has been prepared pursuant to provisions of the Municipal Improvement Act of 1913, Articles XIIIC and XIID of the California Constitution, Sections 53750-53754 of the Government Code, and Section 10,000 et. seq. of the Streets and Highways Code.

Part I of this Engineer's Report sets forth the proposed improvements, Part II sets forth the general description of works or properties to be acquired, Part III, in conjunction with Table 1, sets forth the cost estimate of the proposed improvements, Part IV sets forth the Boundary Map and Assessment Diagram for the assessment district, and Part V, in conjunction with Appendix B, sets forth the proposed assessments.

### **PART I PLANS AND SPECIFICATIONS OF THE PROPOSED IMPROVEMENTS**

The proposed improvements include engineering services and the construction of a sanitary sewer system necessary to provide wastewater collection and conveyance to private properties in an area located within the unincorporated area of Los Angeles County in the vicinity of the City of Duarte.

The proposed improvements consist of approximately 2,000 lineal feet of 8-inch sewer, approximately 10 sewer manholes, approximately 1,900 lineal feet of 6-inch sewer laterals, and three connections to the existing sewers in Camino Real.

The general nature, location, and extent of the proposed improvements are set forth in Figures 1 and 2. Preliminary plans and specifications for County Improvement District No. 2659-M, Shrode Avenue Sewer and Other Rights of Way are on file in the office of the Executive Officer of the Board of Supervisors and the Department of Public Works and are incorporated herein by reference.

### **PART II GENERAL DESCRIPTION OF FACILITIES AND PROPERTIES TO BE ACQUIRED**

No existing properties or facilities are to be acquired as part of the project; however, the sewer in Shrode Avenue will connect to three separate existing Consolidated Sanitation District of Los Angeles County manholes at the intersections of Broderick Avenue and Camino Real, Calmia Road and Camino Real, and El Toro Road and Camino Real.

Said manholes are owned, operated, and maintained by the Consolidated Sanitation District. Wastewater will be conveyed from said manholes through the existing sewers to an existing wastewater treatment facility for treatment and disposal.

All facilities will be constructed within public rights of way except for the 8-inch sewer line, manhole, and 6-inch sewer laterals to be constructed in the private alley that serves as public access to eight properties located north of Shrode Avenue at the intersection of Shrode Avenue and Broderick Avenue. Since the alley is a private street, the County of Los Angeles Department of Public Works has obtained easements from four of the property owners for the construction, operation, and maintenance of facilities within the private alley, which will serve all eight properties. Public Works will issue a sewer construction permit for construction of the facilities within the County of Los Angeles.

### **PART III COST ESTIMATE OF PROPOSED IMPROVEMENTS**

As set forth in Part I, the proposed improvements include the engineering services and the construction of a sanitary sewer system necessary to provide wastewater collection and conveyance.

The estimated improvement costs are set forth in Table I. Said costs are based on the assumption that the entire project will be financed with 1911 Act bonds. The estimated improvement costs include construction costs, incidental expenses, and finance expenses related to the 1911 Act bonds.

### **PART IV BOUNDARY MAP AND ASSESSMENT DIAGRAM**

Map No.1, titled "County Improvement District No. 2659-M, Shrode Avenue Sewers," sets forth the boundaries of the assessment district. A copy of the boundary map is on file (along with this Engineer's Report) in the office of the Executive Officer of the Board of Supervisors and Public Works and is incorporated herein by reference.

Map No.2, titled "Proposed Boundaries of County Improvement District No. 2659-M, Shrode Avenue Sewer project and Other Rights of Way, County of Los Angeles, State of California," sets forth each individual parcel of land to be assessed. This map will also be known as the Assessment Diagram. An assessment number has been assigned to each parcel as set forth in the Assessment Roll, Part B, in the Appendix. Said Assessment Diagram references Los Angeles County Assessor's Maps, Book 8521 (page 12) and Book 8534 (page 4) for particular dimensional information pertaining to each Assessor's Parcel. A copy of the Assessment Diagram is on file (along with this Engineer's Report) in the office of the Executive Officer of the Board of Supervisors and Public Works.

## **PART V PROPOSED ASSESSMENTS**

The law requires and the statutes provide that assessments, levied pursuant to the provisions of the "Municipal Improvement Act of 1913," be based on benefits that properties within the assessment district receive from the improvements. The statutes do not specify the allocation method or formula. The Assessment Engineer analyzes the facts and determines the allocation of the assessment and, the legislative body, by confirming the Engineer's Report, determines the benefit to each parcel within the assessment district. The final authority and finding of benefit action rests with the County of Los Angeles Board of Supervisors (Board). After hearing all testimony and evidence presented at a public hearing, the Board must determine whether or not the assessment allocation has been made in direct proportion to the benefits received.

The benefits that the improvements will render to the properties within the assessment district must be identified; each property must receive special and direct benefits as distinguished from general benefits to the general public. In this case, it has been determined that all existing assessor's parcels within the assessment district will receive the benefit of a public wastewater collection and disposal system.

The proposed improvements consist of the design and construction of wastewater collection and conveyance facilities as set forth in Parts I and III this Engineer's Report. The proposed improvements are improvements as defined in the Municipal Improvement Act of 1913.

### **A. GENERAL AND SPECIAL BENEFITS**

In addition to the Municipal Improvement Act of 1913 requirements, Section 4 of Article XIID of the California Constitution requires the separation of general benefits from special benefits conferred on a parcel. Special benefit is defined by Article XIID as "a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large."

General enhancement of property value does not constitute a special benefit; however, the specific enhancement of property value is a special benefit. In essence, an assessment, levy, or charge on a parcel must be based on a special and distinct benefit to the parcel and shall not include any general benefits conferred on the public at large including real property within the assessment district. The proposed improvements confer benefits upon real property within the assessment district as follows.

#### **1. Special Benefits**

- Each parcel within the assessment district will receive the benefit of wastewater collection and conveyance facilities to collect wastewater and convey it to a CSDLAC treatment facility for treatment and disposal.

Since all parcels outside the assessment district are presently sewerred, the proposed project will be constructed and maintained for the sole benefit and use of only those parcels within the assessment district; therefore, the improvements will not result in any general benefits.

## **2. General Benefits**

No parcels outside the assessment district will receive any benefit from the proposed project; only those parcels within the assessment district will receive a unique and special benefit. Since all of the benefits are special, there are no general benefits to the parcels within the assessment district. No parcels outside the assessment district benefit from the construction and maintenance of the improvements; therefore, there are no benefits of a general nature to the public at large.

## **B. PUBLICLY-OWNED PARCELS**

In accordance with Section 4 of Article XIID of the California Constitution, publicly-owned parcels are required to be assessed unless they in fact receive no special benefit. Within the assessment district, there are no public parcels.

## **C. METHOD OF ASSESSMENT**

The estimated improvement cost consists of the following components:

- Design and construction of wastewater collection and conveyance facilities.
- CSDLAC connection fees.

The assessment per parcel will consist of the same components, a component applicable to the design and construction of the wastewater collection and conveyance facilities and a component applicable to the connection fees. The costs attributable to each of these components are set forth in the cost estimate enclosed in the Appendix and summarized as follows:

Component	Estimated Cost
Design and Construction	\$860,185
Connection Fees	\$104,640
Total	\$964,825

Following is the methodology used to allocate the costs of the improvements to each individual assessor's parcel based upon the benefit received by that parcel.

**1. Design and Construction of Wastewater Collection and Conveyance Facilities**

Wastewater collection and conveyance facilities were designed and will be constructed to accommodate wastewater flows contributed by each parcel within the assessment district. The project area is essentially fully developed with the exception of four vacant parcels.

Wastewater flows from each residential parcel are based on the number of existing dwelling units for each parcel and unit wastewater flows obtained from CSDLAC. Wastewater flows from each commercial parcel are based on the type of use, area of existing buildings for each parcel, and unit wastewater flows obtained from CSDLAC. Wastewater flows for vacant parcels are based on the maximum number of dwelling units in accordance the current zoning and unit wastewater flows obtained from CSDLAC.

The current zoning and the maximum number of dwelling units for the vacant parcels are based on information furnished by County of Los Angeles Department of Regional Planning as follows:

<u>Zoning Classification</u>	<u>Maximum Number of Dwelling Units</u>
A-1 Single-Family Residence Zone	1-6 units/acre
R-2 Two-Family Residence Zone	1-6 units/acre

Unit wastewater flows are based on a table furnished by CSDLAC for Sanitation District No. 22, Connection Fee, Loadings, Capacity Units, and Unit Rates (said table is included in Appendix A of this report) and are summarized as follows:

<u>Category</u>	<u>Wastewater Flow</u>
Single-Family Home	260 gpd/Dwelling Unit
Duplex	312 gpd (156 gpd/Dwelling Unit)
Triplex	468 gpd (156 gpd/Dwelling Unit)
Fourplex	624 gpd (156 gpd/Dwelling Unit)
Five Units or More	156 gpd/Dwelling Unit
Condominium	195 gpd/Dwelling Unit

Each parcel within the A-1 Land Use Zone was assigned a wastewater flow of 260 gpd. Each parcel within the R-2 Zone was assigned a wastewater flow of 156 gpd per dwelling unit.

Since the design and construction of the wastewater collection and conveyance facilities are based on wastewater flow from the assessment district, each parcel will be assessed for its share of the design and construction of wastewater collection and conveyance facilities based on wastewater flow from that parcel. For residential zones, the number of dwelling units and the wastewater flow for each parcel are set forth in a table furnished by CSDLAC for Sanitation District No. 22, Connection Fee, Loadings, Capacity Units, and Unit Rates (said table is included in the Appendix of this report). There are no commercial zones or mixed-use zones within the boundaries of the assessment district.

## **2. CSDLAC Connection Fees**

If the assessment district is formed, CSDLAC connection fees for all developed parcels within the assessment district will be paid with proceeds from the assessment district. The payment will be based on the number of existing dwelling units for those parcels in the A-1 and R-2 Zones. CSDLAC connection fees are based on capacity units as set forth in the table furnished by CSDLAC for Sanitation District No. 22, Connection Fee, Loadings, Capacity Units, and Unit Rates and are summarized as follows:

<u>Category</u>	<u>Capacity Units</u>
Single-Family Home	1.0/Parcel
Duplex, Triplex, Fourplex, 5 Units or More	0.6/Dwelling Unit
Condominium	0.75/Condominium

There are no parcels within a C-2 (commercial) Zone.

Since connection fees are based on existing conditions, each parcel will be assessed its share of the connection fees based on existing capacity units. Existing capacity units for each parcel are set forth in the table furnished by CSDLAC for Sanitation District No. 22, Connection Fee, Loadings, Capacity Units, and Unit Rates. Vacant parcels have not been assessed for CSDLAC connection fees; therefore, if vacant parcels are developed, the property owners will be required to pay the current CSDLAC connection fees at the time of development.

#### D. ASSESSMENT

As set forth in Section C, the assessment per parcel will consist of two components, a component applicable to the design and construction of the wastewater collection and conveyance facilities and a component applicable to the connection fees. The component applicable to the design and construction of the wastewater collection and conveyance facilities will be based on the wastewater flow per parcel while the component applicable to the payment of the connection fees will be based on existing use of each parcel.

The unit cost for the component applicable to the design and construction of the wastewater facilities will be the total cost of said facilities (\$860,185) divided by the total wastewater flow (17,940 gpd) or \$47.947882/gpd ( $\$860,185 \div 17,940$  gpd). Each parcel will be assessed its share of the design and construction of the wastewater facilities using the unit cost of \$53.780658/gpd and the wastewater flow from each parcel.

Of the 64 parcels included in County Improvement District No. 2659-M, the parcels with Assessor's Parcel No. (APN) 8521 012 010, 8534 004 055, and 8534 004 039 have already paid their connection fees to Sanitation District No. 22. The unit cost for the component applicable to the connection fees of the 61 remaining parcels will be the total cost of said fees (\$104,640) divided by the total number of existing sewage capacity units (65.40) or \$1,600/capacity unit ( $\$104,640 \div 65.40$ ). Each parcel will be assessed its share of the connection fees using the unit cost of \$1,600/capacity unit and the existing number of capacity units.

The Assessment Roll attached in the Appendix, Part A, includes the assessment number and the total assessment per parcel.

The Assessment Roll attached in the Appendix, Part B, sets forth assessment number, the Assessor's Parcel Number, the Zoning Code, the lot size, the owner, and the property address for each parcel within the assessment district.

Typical assessments for several zoning classifications are as follows:

<u>Zoning Classification</u>	<u>Design &amp; Construction Assessment</u>	<u>Connection Fee Assessment</u>	<u>Total Assessment</u>
A-1	\$12,739	\$1,600	\$14,339
R-2 (2 existing dwelling units)	\$14,692	\$1,920	\$16,612
R-2 (3 existing dwelling units)	\$20,551	\$2,880	\$23,431

**PART VI**  
**PROPOSED MAXIMUM ANNUAL ASSESSMENT**

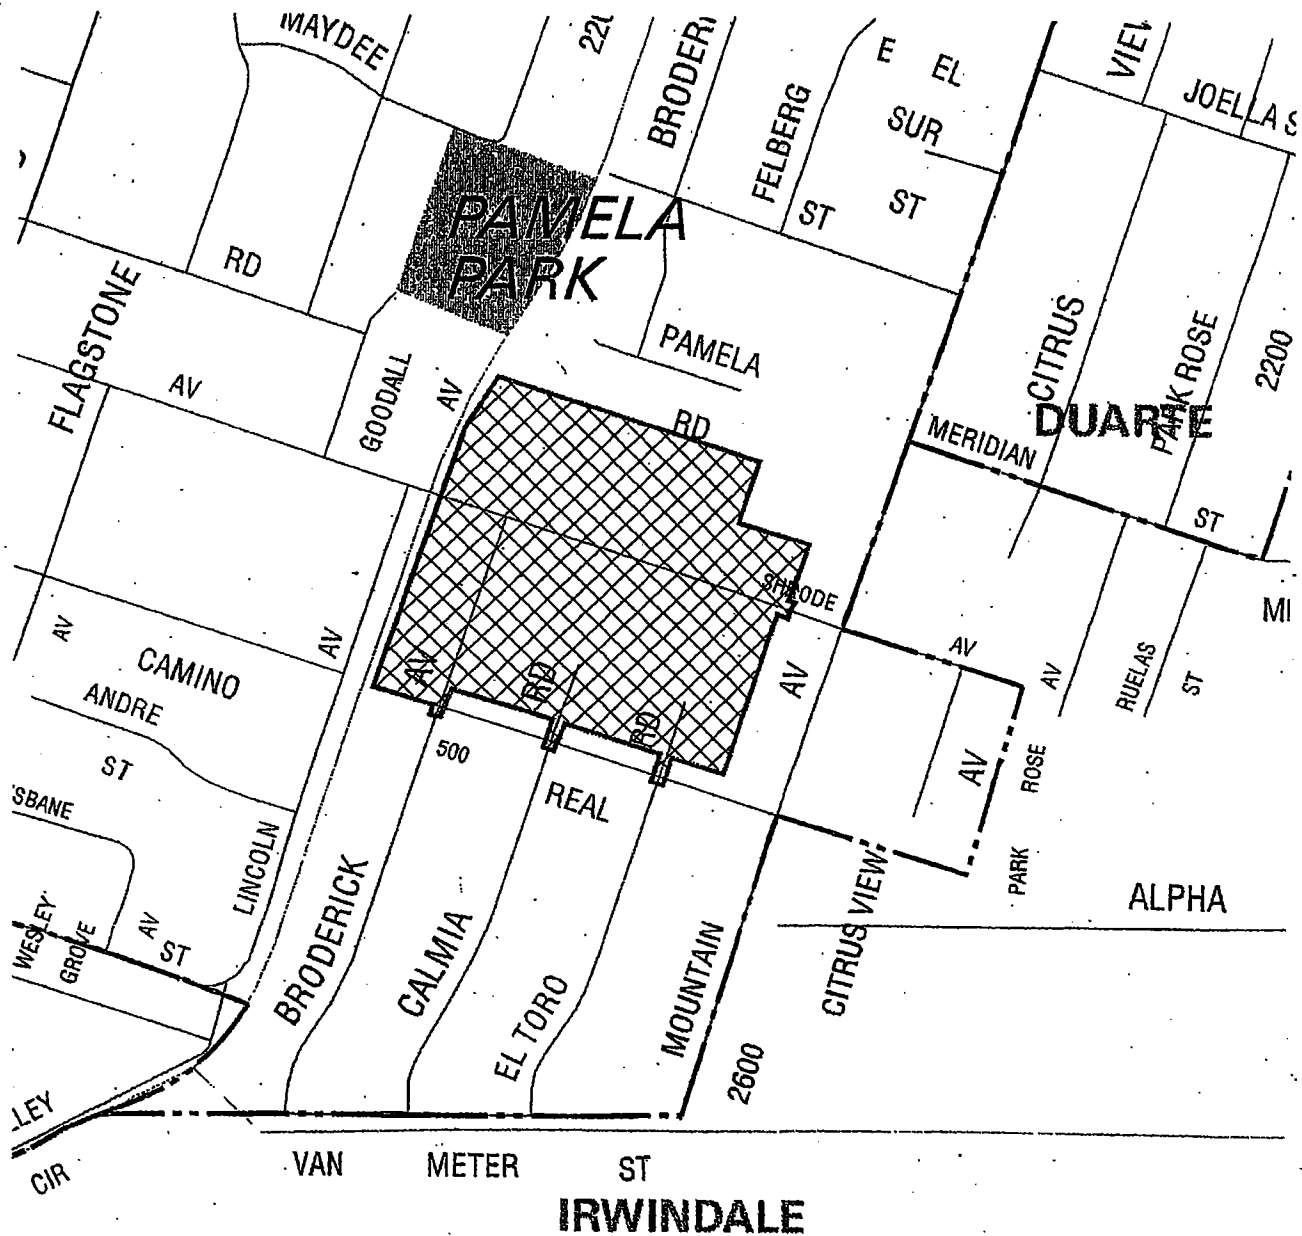

In addition to the assessments set forth in this Engineer's Report, the County of Los Angeles will incur annual costs from the administration and collection of assessments or registration of any associated bonds and reserve or any other funds related to County Improvement District No. 2659-M. These costs will be assessed equally to each Tax Assessor's Parcel within County Improvement District No. 2659-M and will be based on actual cost not to exceed \$75 per parcel.

ASSESSMENT DISTRICT PARCEL NUMBER SHOWN THIS 20

Filed in the office of the Executive-Clerk of the Board of Supervisors of the  
County of Los Angeles, State of California, this \_\_\_\_\_ day of \_\_\_\_\_

VIOLET VERONA-LEWIS  
Executive Officer of the Board of  
Supervisors of the County of Los Angeles

By \_\_\_\_\_ Deputy

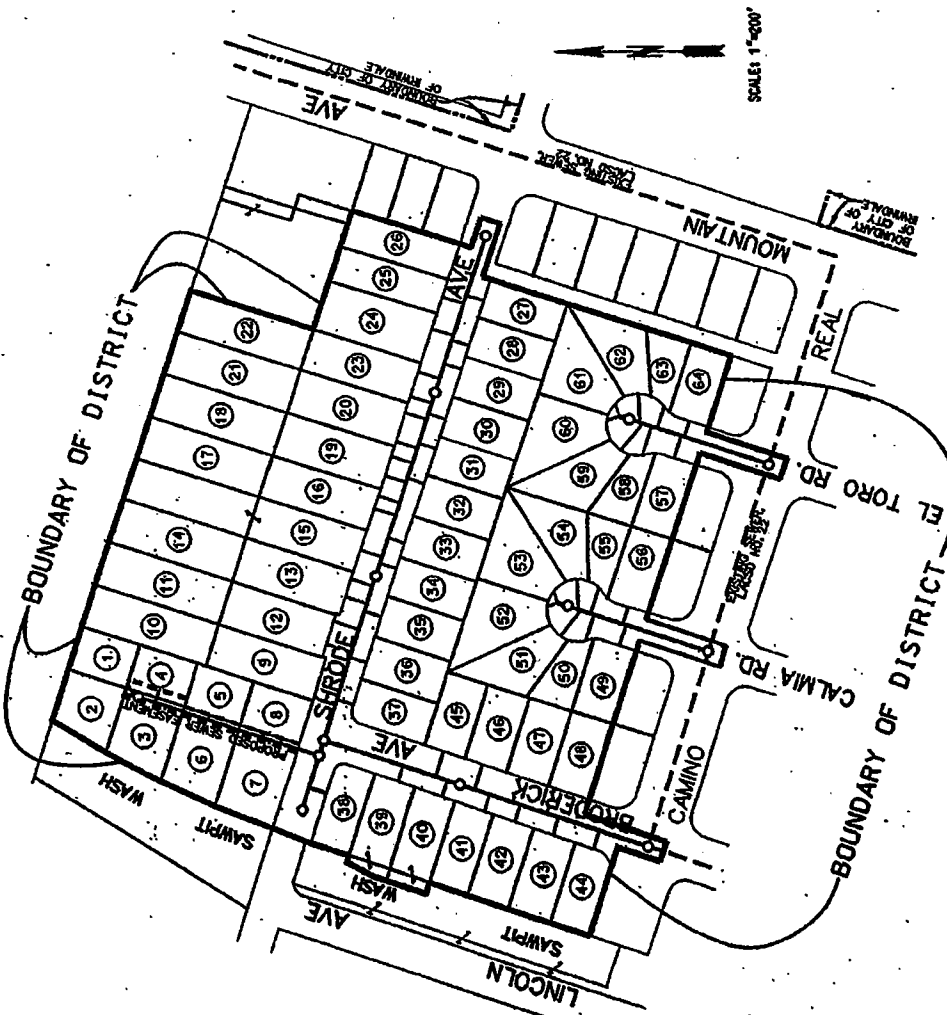

An assessment was levied by the Board of Supervisors on the lots, pieces,  
and parcels of land shown on this assessment diagram. The assessment was  
levied on the \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_.  
The assessment diagram and assessment roll were recorded in the  
office of the Director of Public Works for on the \_\_\_\_\_ day  
of \_\_\_\_\_, 20\_\_\_\_. Reference is made to the assessment  
roll recorded in the office of the Director of Public Works for the exact  
amount of each assessment levied against each parcel of lands  
shown on this assessment diagram.

<b>INDUSTRIAL</b>		
The connection fee for an industrial discharger will be calculated by the Los Angeles County Sanitation Districts based on projected wastewater quantity and strength contained in the Application for Permit for Industrial Wastewater Discharge and you will be billed separately.		

- <sup>1</sup> Bakeries which sell the majority of their products off-site and have wastewater flows greater than 500 gallons per day are classified as industrial waste dischargers.
- <sup>2</sup> Centralized food processing facilities for distribution to supermarkets are classified as industrial waste dischargers.
- <sup>3</sup> Radiator shops are classified as industrial waste dischargers.
- <sup>4</sup> Warehouses which store hazardous chemicals and have floor drains are classified as industrial waste dischargers.
- <sup>5</sup> Laundries which are not coin operated are classified as industrial waste dischargers.
- <sup>6</sup> Hospitals which provide acute care service are classified as industrial waste dischargers. Senior citizen housing with individual cooking facilities are classified under the multi-unit residential category.
- <sup>7</sup> Student residences are classified as rooming houses unless individual units have separate cooking facilities in which case they are classified under the multi-unit residential category.

**COUNTY IMPROVEMENT NO. 2659-M  
SHRODE AVENUE SEWER PROJECT  
UNINCORPORATED COUNTY AREA IN THE VICINITY OF THE CITY OF DUARTE  
RESOLUTION SETTING TIME AND PLACE FOR HEARING**

WHEREAS, proceedings have been instituted for this improvement under the provisions of Division 12 (commencing with Section 10000) of the California Streets and Highways Code (Municipal Improvement Act of 1913); and

WHEREAS, the Resolution of Intention for this improvement was duly adopted by the Board of Supervisors of the County of Los Angeles, State of California, on the \_\_\_\_\_ day of \_\_\_\_\_, 2005; and

WHEREAS, the report called for in said Resolution of Intention has been duly prepared and filed with the Executive Officer-Clerk of the Board of Supervisors; and

WHEREAS, said report has been presented to and duly considered by this Board on the \_\_\_\_\_ day of \_\_\_\_\_, 2005.

**NOW, THEREFORE, THE BOARD RESOLVES:**

That the \_\_\_\_\_ day of \_\_\_\_\_, 2005, at the hour of \_\_\_\_\_ of said day, is the day and hour and the Hearing Room of the Board of Supervisors, Room 381, Kenneth Hahn Hall of Administration, 500 West Temple Street (corner of Temple Street and Grand Avenue, Los Angeles, California 90012, is the place fixed by the Board for hearing protests in relation to the proposed improvement.

That the time and placed herein fixed for hearing protests to the proposed assessment, a public hearing will also be held, pursuant to Part 2 of Chapter 4.56 of the Los Angeles County Code and Section 53753 of the Government Code, to hear objections to the proposed assessment. At any time prior to the conclusion of the public testimony at the hearing, any ballot previously filed may be changed or withdrawn. At the conclusion of the hearing, the ballots shall be tabulated using the weighted tabulation by amount of assessment. A majority protest exists if ballots in opposition to the assessment exceed ballots in support.

That the Director of Public Works, or his designee, is hereby directed to mail notices of said hearing and assessment ballots, attached as Exhibit A (form of notice an ballot), to all persons owning real property proposed to be assessed, who names and addresses appear on the last equalized assessment roll for County taxes prior thereof or as known to the Executive Officer-Clerk of the Board of Supervisors, all in accordance with the provisions of Section 53753 of the California Government Code.

The foregoing resolution was on the \_\_\_\_\_ day of \_\_\_\_\_, 2005,  
adopted by the Board of Supervisors of the County of Los Angeles and ex-officio the  
governing body of all other special assessment and taxing districts for which said Board so  
acts.

**COUNTY IMPROVEMENT DISTRICT NO. 2659-M  
SHRODE AVENUE SEWER PROJECT  
FOR THE CONSTRUCTION OF SANITARY SEWERS  
AMENDED AND RESTATED RESOLUTION  
CONFIRMING ASSESSMENT AND ORDERING IMPROVEMENTS MADE**

WHEREAS, the Board of Supervisors (the Board) of the County of Los Angeles, State of California, did on \_\_\_\_\_, 2005, adopt a Second Amended and Restated Resolution of Intention under the Municipal Improvement Act of 1913 for the construction of sanitary sewers under County Improvement District No. 2659-M (Shrode Avenue Sewer Project), which amended and restated an Amended and Restated Resolution of Intention adopted by the Board on August 24, 2004; and

WHEREAS, the Board desires to amend and restate the County Improvement District No. 2659-M Shrode Avenue Sewer Project for the Construction of Sanitary Sewers Resolution Confirming Assessment and Ordering Improvements Made adopted on August 24, 2024; and

WHEREAS, the report dated September 2005 (the Report), containing the plans and specifications, an estimate of cost, a diagram, and assessment, has been presented to and considered by this Board; and

WHEREAS, on June 27, 2003, a public meeting was conducted to receive additional public comments regarding the proposed improvements; and

WHEREAS, due notice of the time and place for hearing objections or protests to the proposed improvement and to the making of a finding and determination by the Board, pursuant to Part 2 of Chapter 4.56 of the Los Angeles County Code, that the public convenience and necessity require such improvements has been published as required by law and notice of said hearings has been mailed to the property owners; and

WHEREAS, on \_\_\_\_\_, 2005, a public hearing was held in the manner provided by Section 53753 of the California Government Code and Proposition 218; and

WHEREAS, the Proposition 218 ballots of the property owners have been tabulated and it has been determined that the majority of ballots weighted by respective assessments are in favor of the assessments and the improvements; and

WHEREAS, this Board heard all objections or protests in relation to the proposed improvements and to the making of the finding of public convenience and necessity with respect to such improvements.

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the County of Los Angeles:

1. That the Board hereby amends and restates the County Improvement District No. 2659-M, Shrode Avenue Sewer Project, for the Construction of Sanitary Sewers Resolution Confirming Assessment and Ordering Improvements Made adopted on August 24, 2004.
2. That the Board hereby finds and determines that the public convenience and necessity require the proposed improvements and, therefore, pursuant to Article XVI, Section 19 of the Constitution of State of California in accordance with Part 2 of Chapter 4.56 of the Los Angeles County Code, the provisions of law and debt limitation and majority protests shall not apply.
3. That the Report, the proposed assessments, the maximum annual assessments, and the assessment diagram are hereby confirmed.
4. That the improvements be made in accordance with the Second Amended and Restated Resolution of Intention and the Report for County Improvement No. 2659-M.
5. That the assessment is hereby levied upon the respective subdivisions of land in the assessment district.

[illegible]

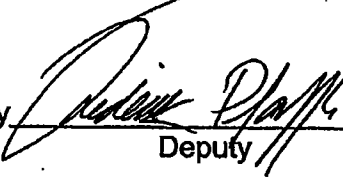

The foregoing Resolution was on the \_\_\_\_\_ day of \_\_\_\_\_, 2005, adopted by not less than a four-fifth vote of all members of the Board of Supervisors of the County of Los Angeles and ex-officio of the governing body of all other special assessment and taxing districts for which said Board so acts.
